EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lanny J. Tucker on January 17, 2006.

The application has been amended as follows:

Claim 22 is canceled.

REASON FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: Winslow et al (US 5,891,615) disclose a sulfur containing chemical sensitizer compounds containing >C=S in heterocyclic ring such as thiohydantoin nucleus, rhodanine nucleus and 2-thio-4-oxo-oxazolidine nucleus shown in column 10, lines 40-65, but fails to teach or fairly suggest a diphenylphosphine sulfide compound claimed in the present invention. The diphenylphosphine sulfide compound may have been known in Riester et al (US 3,895,951), but Riester et al fail to teach or fairly suggest the use of the compound to chemically sensitize the silver halide emulsion by decomposing such compound in a oxidizing environment presented in the claimed process. Therefore, the worker of ordinary skill in the art would not have an expectation of success of using the compound having >P=S group taught in Riester et al in lieu of the sulfur containing >C=O in the absence of any suggestion disclosed in Winslow et al.

Art Unit: 1752

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
